## HOW IT ALL WORKS?

### What's the commitment?

We will keep it easy peasy. You decide when and where you work on the suggested exercises. Pace yourself here. One session per week is a great pace!

### Suggestions

- + Read one session per week and try the suggested exercises.
- + Try setting the goal to complete all sessions in 12 weeks.
- + Do all of the sessions twice a year and fine-tune your plan.

That's it!

**This e-book is truly only a summary of all the online sessions and we've kept the information in this e-book very brief.** For the full sessions + exercises, tips, tricks, insights & explanations please go online and do the e-course sessions there. You might otherwise miss out on a lot of interesting insights, and this e-book is simply only a reminder of the exercises once you've done them all.

Feel free to tell others about *Super Change Champion* and in case they wish to learn what you're learning, **please guide them back to the source** and let them purchase the e-course(s) so they too get access to all of the materials + updates. By doing so, the team and I, marianne also get financially supported and all of the people we support through charity as well.

## WHAT DOES CHANGE MEAN TO YOU?

**Take some time to answer the following questions, sit with them, listen to the answers. Let them flow out of you. There is no right or wrong.**

- What are the reasons you are doing this course?
- What does change mean to you? Feel free to look up the definition or define it yourself.
- What do you feel when you think about change?
- What do you struggle with when it comes to the topic of change?
- Is it about changing a situation, a feeling, a thought or maybe a habit or behaviour?
- What are you hoping to get out of the course?
- How much time are you willing to spend on the course per week?
- Can you dedicate time in your agenda for this course? Perhaps plan it, so you keep staying on track. It is also advisable to do at least one session per week.

**Remember too, it is a process and it is never completely finished.** It is therefore essential to keep on revisiting your goals and also the role you wish to play in reaching them during this process of change. Here are a few more questions to ask yourself:

- How would I like to move forward in the long-run?
- How can others also benefit from this in the future?
- To what extent am I dedicated to reach my goals?
